

Product Sheet Mobile

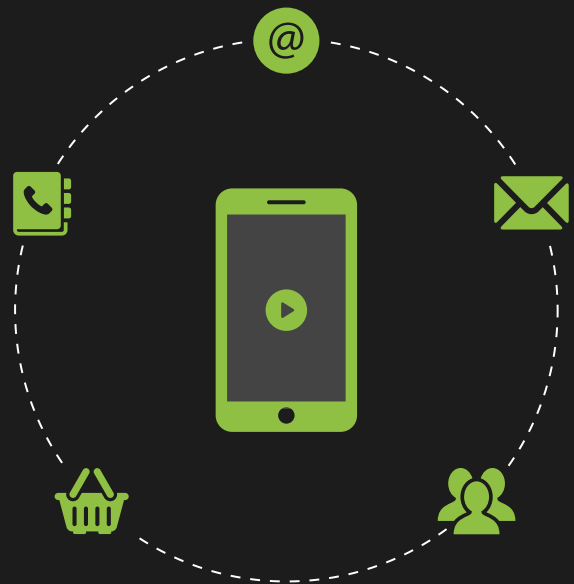

Working with us means working with the country's leading mobile phone service providers.

We tailor our mobile packages to suit your needs as we know that no two businesses are the same. The right business mobile phone structure is important to any enterprise, elevating productivity and efficiency.

Our unique relationships with the major mobile network providers land us in the best position to offer you the right tariffs, the right handsets and the right network for your business mobile phones. What's even better is we offer all of this at the lowest monthly spend possible.

Our mobile solutions don't stop at just handsets, tariffs and networks. We know the frustration of receiving nasty phone bill shocks all too well. That's why we provide you with an online portal where you can set your own caps for calls and data usage for each individual mobile phones. Our specialist tools and programmes allow us to offer Mobile Device Management

meaning your smartphones, tablet computers, laptops and desktop computers are continually managed and looked after by us. There's one less stress for you to worry about!

Last year we saved our mobile customers **28%** on their mobile calls by finding the right tariffs for each mobile user

To find out how we can help reduce your monthly mobile spend contact us now. We will be happy to help and answer any questions you have.
